Foggy Night at the Harbor

To create the mood of a foggy night, play very smoothly and softly and use pedal. In the first two phrases the right hand plays just F, A, C, except for G at the endings, and the left hand moves down by half steps. What is the only difference between measures 1-8 and 9-16? Notice that the middle part is made entirely of 5ths, with added 2nds in the right hand.

Slowly and softly

HANSI ALT

The Harpist

There are many broken chords in harp music. In fact, the word 'harp' and 'arpeggio' (broken chord) have the same root. Help your ear recognize the sound of the different chords in this piece by playing the notes of broken chords together. The one in measure 17 (also meas. 33) is an augmented chord. The second section is the same as the first, up to which measure?

Gracefully; not too slowly

BERENICE BENSON BENTLEY
