## Using the CD

A CD is available demonstrating all the music in this book for saxophones in the key of E $\flat$  (alto or baritone). Although this book alone will work with any saxophone, saxophones in B $\flat$  (tenor and soprano) will not work with the CD. The track numbers on the CD correspond with the track numbers listed throughout the book. If you want to play along with the accompaniment track, the sax can be tuned out by using the balance control on your stereo.

2/4 = 2 beats to a measure  
 4 = Quarter note ♩ gets 1 beat

Fermata  
  
 Hold the note longer
