Time Signatures

Each piece of music has two numbers at its beginning called a time signature. These numbers tell us how to count time for that particular piece.

4/4 The TOP NUMBER tells us how many counts in each measure.

The BOTTOM NUMBER tells us what kind of note gets one count.

3/4 THREE counts to a measure

A QUARTER NOTE gets one count

Important:

Fill in the missing time signatures of the songs already learned. Even though tablature players do not read standard music notation, it is still important to become familiar with the concept of time signatures.

A graduate of the Berklee School of Music, Melissa Etheridge came into prominence in the later 1980s with a fresh, personal brand of pop, highlighted by her earthy vocal style and straightforward guitar lines.
