

MARGARET GOLDSTON

A Special Collection of 7 Early Elementary to Elementary Favorite Piano Solos

FOREWORD

Margaret Goldston loves to write sheet music solos, and it shows in every solo! She carefully crafts each piece, tests it on her own students and re-works it until she is satisfied. It's no wonder that so many teachers and students are fans of Margaret's music.

Turn the pages of this special collection and find some of Margaret's personal favorite and best-selling music solos. Let the music of Margaret Goldston enchant and motivate your students today!

* Have fun looking for the "reflections" in the music! You will discover that some measures are like a musical mirror in which many of the same intervals found earlier in the piece are "upside down" or are in the opposite direction. Also, many finger numbers will be the same but in the opposite hand. Try adding the soft pedal in the "reflections" section for a nice effect.
