The Staff and Treble Clef

Guitar music is usually written on a five-line *staff*.
The lines are numbered from the bottom up.

At the beginning of each staff
is a *treble clef* that looks like this:

How to Draw the Treble Clef

Step 1: Draw a circle under the staff and fill it in.

Step 2: Draw a curved line (like the letter “u”) that starts from the bottom of the circle and touches the bottom of the first line of the staff.

Step 3: Draw a line up from the first line to the fifth line.

Step 4: Draw a loop above the second line of the staff.

Step 5: Draw a long curving line that goes around the second line of the staff.

Now, draw six treble clefs below.
