FUN BOOK 3 of Alfred's Basic Piano Library contains 17 short pieces, carefully coordinated PAGE BY PAGE with the material in LESSON BOOK 3. These selections may be used *in addition to* or *instead of* the pieces in RECITAL BOOK 3, to provide additional reinforcement to the concepts emphasized in each piece. They may also be used as extra material for sight reading. However they are used, they should serve to make the course more flexible and more easily adaptable to the taste and needs of the individual student.

This book also answers the often expressed need for a variety of supplementary material for use when two or more students from the same family are studying from the same course and prefer not to play exactly the same pieces.

The subjects for the selections composed especially for this book were often suggested by students and teachers, with a view to adding good humor and amusement to the lesson. It is our hope that this book will live up to its name, for teachers and students alike.
