PUZZLE #66: CHRISTMAS CAROLS

Crypto-lists are lists of related words and phrases that have been translated into a code. The code is the same for every word in the list. For example, if G represents A in one word, it will represent A in every word on the list. Your job is to find the right code so that every word fits the theme of this puzzle.

NAME _____

HINT: Start thinking of answers that might fit the theme and try out that code. Or you can start by looking for common words that have the same letter pattern. Not every letter of the alphabet will be used in the puzzle.
