

# AN UNENDING LEGACY

By Barry Milner

*The legacy we leave will be as a result of what we taught; what is our legacy to our children, country and/or world?*

This beautiful melody will evoke a remembrance of someone who has had or is having a profound impact on your life; remember to thank them for it.

A "legacy," according to *Webster's Dictionary*, is defined as: "something transmitted by or received from a predecessor." Educators and other members of the education community have the awesome responsibility to nurture and guide students on their path to greatness. This, in essence, is a legacy, but the connotation of the word only implies one or two generations. The word "unending" implies something eternal; it begins with one passing on what they learned to another, then another and another. Education, more than most professions, has the power to shape and change a person's life. It is this "Unending Legacy" that will cultivate the minds today for a brighter tomorrow.
