## NOTES TO THE CONDUCTOR

The best preparation for playing this chart is listening to Neal Hefti's original arrangement of *Li'l Darlin'*. I purposefully imitated this classic in my new arrangement of *Have Yourself a Merry Little Christmas*. In fact, I originally intended to title this arrangement, *Have Yourself a Merry Li'l Christmas, Darlin'*, but later changed by mind.

There's nothing aggressive about this arrangement and the blend of the band is of the utmost importance. Like the original Hefti chart, be sure the band does not play the short notes too short, and please don't be in a hurry—relax and make each note last by giving it the full length, especially at the end of a phrase. Also, be sure that the band isn't playing so softly that it sounds uncomfortable or timid—play with assurance and strive for a full, warm ensemble sound. I suggest directing the trumpet soloist to come up front or at least play into a microphone for the solo with the harmon mute.

In measure 5 and many other places where there is an upbeat figure, the entire band should be thinking triplets as the underlying pulse. That concept will assist in accuracy, feel and playing the figures together. In measure 6, the alto and trumpets 1 and 4 must think as one with the triplet melody line. The staccatos on beats 3 and 4 in measure 13 are detached but not clipped at this tempo—think “daht.”

Dynamics are essential, and make sure the saxes stay under the muted trumpet solo at 21. The loudest point in the chart is measure 35—and that is only *mf*. Phrasing is also critical, so make sure the band breathes together.

I sincerely hope you and your audience enjoy this piece—it was a joy to write it!
