NOTES TO THE CONDUCTOR

This arrangement of *25 or 6 to 4*, the timeless jazz-rock classic from the group Chicago, is in a driving rock style. I recommend playing the original recording of the tune for your ensemble, especially focusing on the tasty solo by legendary guitarist Terry Kath. Then play the demo recording of this arrangement available at alfred.com. Playing these recordings will greatly assist the teaching process. Listening is a very important part of jazz studies.

The solos in the section beginning at measure 37 are completely written out; however, simple chord symbols are included to encourage some improvisation. Try some simple exercises in embellishing the written solos as a start in the improvisation process.

The piano part varies between treble and bass clef frequently, so alert your pianist accordingly. It's not difficult but may catch the player off-guard at first. Your pianist may also experiment with some simple comping using the chord changes provided. Encourage the pianist to vary the chord voicings; doing so will greatly expand the player's knowledge and skill.

In the solo section, you have the option to expand it to include a guitar solo (written out). If a guitar solo is not an option then the guitarist may comp behind other solos or lay out. Comping is supporting or accompanying the soloist with background rhythms in the style of the chart using the chords provided. Again, listening to the original recording and the Belwin Jazz/Alfred Music demo recording will provide solid examples.

I hope that you and your ensemble find this arrangement of *25 or 6 to 4* to be an exciting and worthwhile experience!

Enjoy!
