Hyperdrive: First discussed by science fiction author Isaac Asimov in the 1940s, this term refers to a device which allows a vehicle in space to travel faster than the speed of light, and to describe said state of travel through space; i.e. the act of entering hyperspace. Full of energy, exciting rhythms, double stops, and 'jazz-like' articulations, this piece will surely propel students and audiences into hyperdrive. Enjoy!

NOTE FROM THE EDITOR

All Belwin string parts have been carefully bowed and fingered appropriately by level. The Yellow Very Beginning series includes many bowings as well as reminder fingerings for first-time readers. The Red Beginning series includes frequent bowings to assist younger players. Fingerings for altered pitches are often marked. The Green Intermediate series includes appropriately placed bowings for middle-level students. Fingerings and positions are marked for notes beyond first position. The Blue Concert series includes bowings appropriate for the experienced high school player. Fingerings and position markings are indicated for difficult passages.
