Try plucking each string four times. With the thumb on the edge of the fingerboard, pluck the lowest string, G, then do the same on D, A, and E.

G G G G

D D D D

A A A A

E E E E

#### HELPFUL TIP

It's best to keep your finger flexible and loose, and also to pluck above the fingerboard. The space between the bridge and the fingerboard is for bowing.

Then, place the violin on your shoulder, and you're ready to play!
