The Quarter Rest

The *quarter rest* means to be silent for one count.

How to Draw Quarter Rests

Step 1: Trace the short lines slanting down from left to right.

Step 2: Trace the longer lines slanting down from right to left.

Step 3: Trace the other short lines slanting down from left to right.

Step 4: Trace the curled lines, almost like a letter "c."

Draw four more quarter rests.

Black-Key Groups

1. This is a ^{two-}_{three-} black-key group.
circle one

2. This is a ^{two-}_{three-} black-key group.
circle one

The Treble Clef

Use with Book 1, page 31.

The TREBLE CLEF SIGN  locates the G above the middle of the keyboard.

This is the G line.

The clef sign curls around the G line.

By moving up or down from the G line, you can name any note on the treble staff.

1. Write the name of each note in the square below it. Then play and say the note names.

2. Write the name of each note in the square below it. The letters in each group of squares will spell a familiar word.
