MONEY

Having sold more than 200 million albums, Pink Floyd is one of the most successful rock bands in history, but ironically, “Money” has the distinction of being one of only two top 20 singles the group ever released.

Roger Waters’ acoustic demo recording of the song reveals he had the song’s shifting time signatures of $\frac{7}{4}$ to $\frac{4}{4}$ to $\frac{6}{4}$ and back to $\frac{7}{4}$ right from the get-go. Guitarist David Gilmour’s contribution includes the deftly orchestrated electric guitars.

THE CD-ROM: In addition to the sound-alike and play-along MP3s, all music examples are provided on the disc. Use the CD-ROM to carefully listen to your parts and practice along. Also, with the included TNT 2 software, you can alter the instrument and vocal mix, slow tracks down, and loop sections for practice.

INTRO/VERSE: “Money” begins with Guitar 1 and the bass playing the song’s signature riff together. As noted, most of the riff is in the unusual $\frac{7}{4}$ time signature. This may be counted either as one measure of seven or a combination of one measure of $\frac{4}{4}$ and a measure of $\frac{3}{4}$.

Below is a part of the verse riff, with the main part shown in $\frac{7}{4}$.
