NOTES TO THE CONDUCTOR

The Cannonball Run was originally commissioned by Tevis Laukat and Cannonball Musical Instruments, and it was originally written for saxophone quintet and rhythm section. Tevis and the boys at Cannonball did their own recording of that chart, and their version was so fun and infectious that this big band version leaped out of my pencil! Well, to be accurate it leaped out of my computer mouse, but you get the idea.

The chart starts out with a long-building intro before settling into the Latin pop groove in m. 49. This groove interests me because of its quasi-walking bass line, which is essentially a simplified version of a prototypical samba bass line. The syncopated piano part is an important component here, and should be played with precision. The piano is the only instrument playing this rhythm, so make sure it is clearly heard.

The melody is stated by one of my favorite sounds in jazz—the tenor sax/trombone unison. Remember the *Jazz Crusaders*? Don't charge in too heavy on this; keep it light and mobile. And speaking of dynamics, this chart doesn't really get loud until after the solo section, except in a few spots, like mm. 29–32, m. 87, m. 95, mm. 121–122, and m. 129 as we kick off into the solos. So watch those dynamics, and for the first half of this chart, think of playing with a simmering, yet under-control intensity.

When the Big Phat Band plays this chart, we have a ball soloing on it.

For me, the chord changes have a lot of meat to grab onto with fairly long stretches of the D minor tonality to loosen up on, but with a healthy helping of ii–V chord progressions to show a true understanding of improvisatory harmony. Hey, don't let me down in mm. 193–200!

After the solos, there's a long build where the soloist(s) fill in between the horn accents (which you may notice are based on the syncopated piano rhythm in the basic groove). This leads to a key change and saxophone soli at m. 233, which of course, your sax section is going to nail. I would ask the rhythm section to keep the volume down here, because the saxes can then play a little lighter and bring out more subtleties in their performance. Also, note that the pianist should go back to playing the written part, and the same with the bass player. While we are all for letting the rhythm guys groove and elaborate on their parts, sometimes there are compositional reasons to stick to the written parts, and this is one of those places.

This soli gives the sax section a good workout, and eventually we get to another long build starting at m. 307. This time the horns gradually layer a number of different figures, little by little as the textures thicken and the groove builds. The ensemble will need to listen closely and feel the time so that the horn figures fit together accurately. Essentially, each musician needs to not only know his or her own part, but also how it fits into the whole. That can be a rather tall order, but the very best ensembles have that kind of awareness, and your band should be shooting for that. This long build climaxes at m. 337 with the whole band playing those four pairs of eighth notes—straight up and down, tight and clean and explosive. Of course this groove is just too cool to stop, and it gets cranking again at m. 343, where your soloist(s) dive back in and take it home. This is not the time for shyness or delicacies. It's time to burn, full out and thrashing. After you've built up the intensity to a feverish pitch, it's time to cue the ending at m. 351. And when you get to the last measure (m. 358—gee, who writes 358-measure charts?) it is completely appropriate to lay back on that last lick—milk those last three notes! It's like a comic dropping his mic after a killing set!

At which point the audience will do their job and rise to their feet to applaud your band's exciting performance. Be sure and give them a little wave from me, and thanks for playing *The Cannonball Run*.

—Gordon Goodwin

**Gordon
Goodwin**

Gordon Goodwin started composing at the age of three. No masterpieces at that time, but he kept at it and wrote his first big band chart at age 13. It was good enough to convince him that he could possibly keep doing this. Flash cut 20 years later and Gordon is working in Hollywood, writing for television and film, playing sessions on keyboards and woodwinds, and working with artists like Ray Charles, Christina Aguilera, Johnny Mathis, Toni Braxton, John Williams, Natalie Cole, David Foster, Sarah Vaughan, Mel Torme, Brian McKnight, and Quincy Jones, to name a few. Goodwin's cinematic scoring and orchestration craft can be heard on such films as *The Sorcerer's Apprentice*, *Escape to Witch Mountain*, *Get Smart*, *Glory Road*, *National Treasure*, *The Incredibles*, *Remember the Titans*, *Armageddon*, *The Majestic*, *Con Air*, *Gone In 60 Seconds*, *Enemy of the State*, *Star Trek Nemesis*, and even the classic cult film *Attack of the Killer Tomatoes*.

In 2000, Goodwin formed The Big Phat Band, an eighteen piece jazz ensemble, which quickly gained a reputation as one of the most exciting large jazz ensembles on the planet. To date, the BPB has released five records, *Swingin' For The Fences* (2000), *XXL* (2003), *The Phat Pack* (2006), *Act Your Age* (2008), and *That's How We Roll* (2011). The albums have featured state-of-the-art guest artists like Arturo Sandoval, Eddie Daniels, Take 6, Brian McKnight, Johnny Mathis, Michael Brecker, Dianne Reeves, David Sanborn, Chick Corea, Dave Grusin, Lee Ritenour, Patti Austin, Art Tatum, Dave Koz, Gerald Albright, and Marcus Miller.

Goodwin's work has garnered him three Emmy Awards and eleven Grammy® nominations, with three Grammy wins for his work on the Pixar film *The Incredibles* (2006) and his arrangements of "Rhapsody in Blue" (2012) and "On Green Dolphin Street" (2014). His charts are played all over the world, and along with his method books and CDs, have been a robust source of inspiration and learning for thousands of young musicians.

Sheet music for "The Cannonball Run" (page 23). The score includes parts for various instruments and voices, with a large red watermark "Preview Use Requires Purchase" overlaid.

Instrumentation:

- SOP. (Soprano)
- ALTO
- TENOR 1
- TENOR 2
- BARI. (Baritone)
- TPP. 1 (Trumpet 1)
- TPP. 2 (Trumpet 2)
- TPP. 3 (Trumpet 3)
- TPP. 4 (Trumpet 4)
- TBN. 1 (Tenor 1)
- TBN. 2 (Tenor 2)
- TBN. 3 (Tenor 3)
- BASS TBN. (Bass Tenor)
- GTR. (Guitar)
- PNO. (Piano)
- BASS
- DRUMS
- AUX. PERC. (Auxiliary Percussion)

Chord Progression (Measures 175-182):

Measure	Chord
175	Bm7(b9) E7 Am7
176	F#m7(b9) B7 Em7
177	Bm7(b9) E7 Am7
178	F#m7(b9) B7 Em7
179	Bm7(b9) E7 Am7
180	F#m7(b9) B7 Em7
181	Bm7(b9) E7 Am7
182	F#m7(b9) B7 Em7

Key Signatures:

- SOP. to TPP. 4: Key of D major (one sharp).
- TBN. 1 to BASS: Key of B minor (two flats).
- GTR. to PNO.: Key of D major (one sharp).
- BASS: Key of B minor (two flats).
- DRUMS and AUX. PERC.: Key of D major (one sharp).

Performance Notes:

- Measures 179-180: "FILL" indicated with a dashed line.
- Measure 181: "sim." (sustained) indicated.
