Two Ways to Play Along

The DVD-ROM disc that comes with this book gives you two options for playing along with the professional recordings: MP3s or the TNT 2 Custom Mix software.

When you insert the disc into your computer, navigate to **Computer** or **My Computer**, right-click on the disc drive icon, and select **Open** or **Explore**. (Mac users can simply double-click the DVD icon that appears on the desktop.) The MP3s can be dragged to your desktop and then transferred to your smartphone, iPod, or burned to an audio disc.

Alternatively, to install the TNT 2 software, double-click on the installer file—please note that installation may take up to 15 minutes. Once installed, you'll be able to create custom mixes of the backing tracks, loop playback for practicing specific sections, and change keys and tempos.

Please note that in both the MP3s and the TNT 2 software, the term "Piano Melody" refers to the composite arrangement provided in the pages that follow. The arrangements in this book include the vocal melody and any signature instrument parts to present one coherent whole.
