The Rhythm Speller Book 2 reinforces rhythm skills based on the concepts introduced in the Music Lesson Book 2. The pages in the book correlate page by page with the materials in the Music Lesson Book. They should be assigned according to the instructions in the upper right corner of the pages in this book. They may also be assigned as review material at any time after the students have passed the designated Music Lesson Book page.

Each page of the Rhythm Speller Book has two activities—a rhythm-writing activity and a rhythm-reading activity. The written activities reinforce note values and counting through coloring, circling, drawing, or matching. The rhythm-reading activities help students practice:

- Clapping or tapping rhythm patterns while counting aloud.
- Playing rhythms on rhythm instruments or keys on the keyboard. (Other rhythm instruments can be substituted for those suggested throughout the book.)
- Chanting words based on rhythm patterns.
