

# Ready? Set? Play!

Sound advice for getting started on your instrument

## 1. YOUR INSTRUMENT—PARTS OF THE ALTO CLARINET

- ▶ Instrument Assembly
- ▶ Disassembly & Cleaning
- ▶ Corks, Pads & Springs
- ▶ Reeds

## 2. PUTTING IT ALL TOGETHER

- A. Place the thin end of the reed into your mouth to moisten it.
- B. When needed, place a small amount of cork grease on each cork. Clean your hands after applying.
- C. Place the neckstrap over your head, so the hook is in the front and the pad is resting on the back of your neck.
- D. Some alto clarinets have one long body section while others have the upper and lower sections separated. If your instrument is separated, carefully lift the upper section with your left hand and the lower section with your right hand. With the upper section keys depressed, gently twist the sections together, being careful to align the bridge keys and avoid bending them.
- E. Carefully lift the bell, depress the key, and gently twist it into place, being careful to align the key.
- F. Place the hook of the neckstrap into the ring on the back of the instrument.
- G. Rest the instrument on your lap and steady it with your left hand.
- H. Gently twist the neck into position.
- I. Remove the mouthpiece cap and ligature. Gently twist the mouthpiece onto the neck. Be sure the flat part of the mouthpiece is facing down.
- J. Add the ligature to the mouthpiece, then slide the thick end of the reed against the mouthpiece with the flat side against the rectangular opening. The reed should be centered and not extend above the top of the mouthpiece. Gently tighten the ligature screws to hold the reed in place.

## 3. PUTTING IT ALL AWAY

- A. Remove the ligature and reed from the mouthpiece.
- B. Place the reed in a reed guard. This helps it dry properly and last longer.
- C. Disassemble in reverse order of assembly. Use the swab to dry the inside of the instrument from the neck. Wipe off the outside with a soft cloth. Carefully place the instrument in the case and close all the latches.
- D. Store only your instrument and its accessories in the case. Music, folders, and other objects may bend keys and damage the instrument.

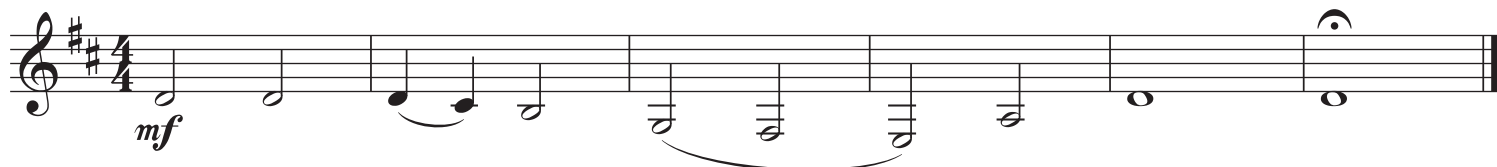

# Scales, Arpeggios, Warm-Up Chorales, and Etudes\*

## Key of D Major (Concert F Major)

### SCALE & ARPEGGIO

184 

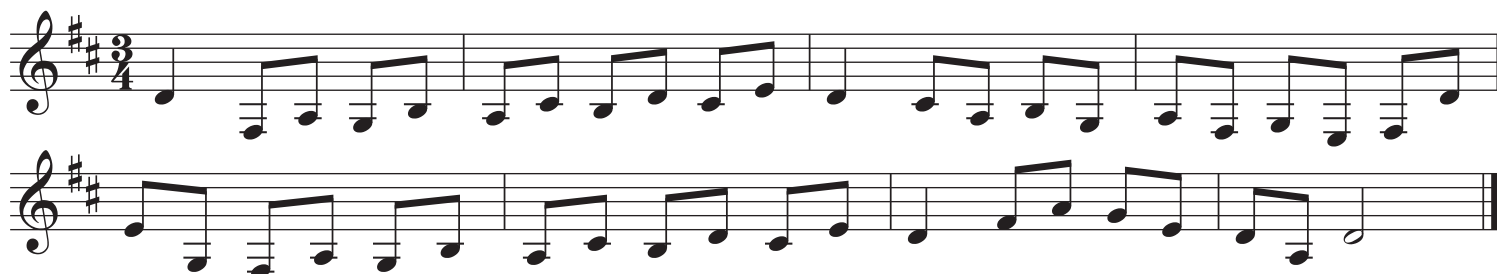

### CHORALE IN CONCERT F MAJOR—Full band arrangement.

185 

### SCALE ETUDE

186 

### INTERVAL ETUDE

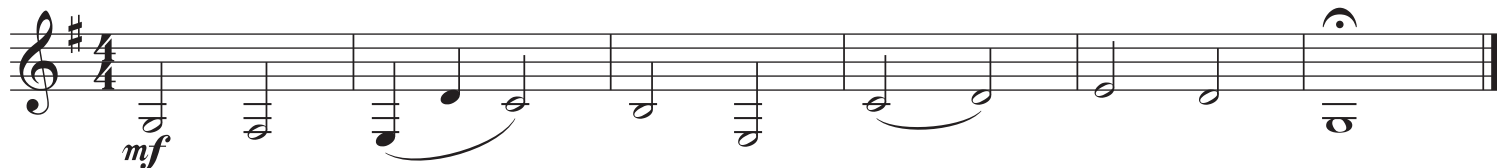

187 

## Key of G Major (Concert B $\flat$ Major)

### SCALE & ARPEGGIO

188 

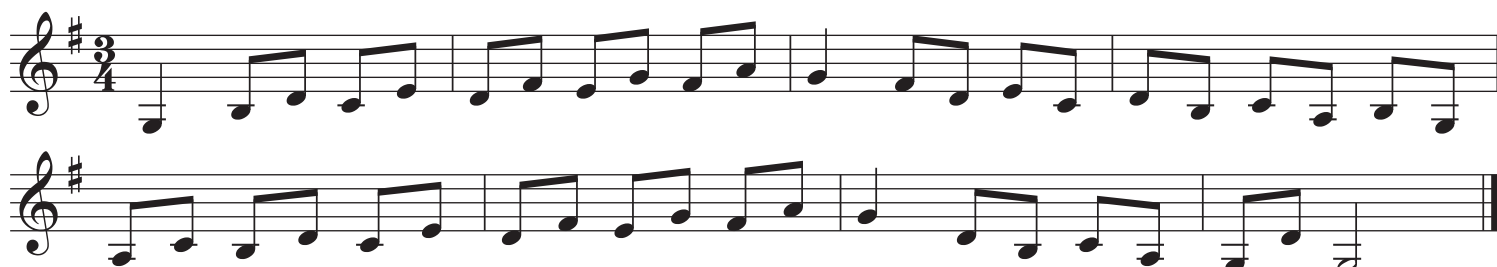

### CHORALE IN CONCERT B $\flat$ MAJOR—Full band arrangement.

189 

### SCALE ETUDE

190 

### INTERVAL ETUDE

191 

\*Scale and Etude exercises may be played with other instruments but are not always in unison.
