GENERAL DESCRIPTION

Concert Band Clinic is the third in a series of four warm-up and musical development exercise sets designed for use in the context of a regular band rehearsal. Consisting of four main segments including Tone, Technique, Theory/Composition, and a Chorale, each *Band Clinic* was written to introduce and/or reinforce musical concepts and technical skills in a full band setting. Published as a set of single band parts, each *Band Clinic* is designed to be included in student folders facilitating instruction and reinforcement in any concert band warm-up situation.

The four sequential sets include:

- First Band Clinic*
- Developing Band Clinic*
- Concert Band Clinic*
- Symphonic Band Clinic*

I have used these exercises in various forms throughout my teaching career as part of my band rehearsal warm-up procedure. I continue to use variations of these exercises in each honor band setting that I am fortunate enough to participate. It is my hope that you will find each *Band Clinic* to be a valuable supplement to your teaching and a useful tool in your rehearsals. I wish you success in all of your teaching endeavors.

NOTES TO THE CONDUCTOR

I. TONE

A. Descending Chromatic Sustains

This exercise is prescribed for initial use as follows:

Perform the exercise in the following sequence repeating as needed for reinforcement:

1. Full band
2. Brass on mouthpieces/Woodwinds play as notated
3. Sing selected intervals (Full band)
4. Full band
5. Invert the exercise beginning on the same Concert F. Perform "ascending" chromatic sustains using the same sequence

Please note that the mouthpiece work following the initial sustains will greatly enhance the brass section's tone quality and sense of pitch. The singing of the descending intervals allow multiple teaching opportunities as the students develop their sense of relative pitch. As an option, you may wish to begin the process of identifying those intervals once the students have successfully experienced them through their performance.

Finally, in a more traditional ear training sequence, we seem to identify ascending intervals more comfortably than descending. Educators have used the time-honored tradition of identifying songs with those ascending intervals to assist in the identification. I would suggest developing a set of descending interval song correlations that can be used in much the same fashion. As an option, you may wish to assign an "interval of the day" and ask the students to locate a song that begins with that particular intervallic sequence.

B. Long Tones

Long tones are essential to the development of a quality sound both as individual performers as well as an ensemble. In addition, percussion students need the opportunity for a daily dexterity regime.

I would suggest beginning the rehearsal with a series of breathing exercises with careful attention given to proper breathing technique. As an example, begin with a series of breaths using four counts to inhale and four counts to exhale (4 and 4). Gradually decrease the number of counts of the inhale while extending the number of counts of the exhale. Other options include using a hissing sound during the exhale to provide resistance.

I suggest introducing the notated exercise as part of the daily routine with a variety of dynamic levels and shaping. In the initial rehearsals, repeat the exercise three times with varied dynamic shapes as follows:

1. Sustain each note at a mezzo forte
2. Begin each note at a piano. Shape each sustain with a crescendo in four beats, decrescendo in four beats
3. Crescendo each sustain for eight beats from piano to forte

As the band progresses, create a variety of dynamic shapes to sustain interest and provide additional developmental opportunities. In addition, please feel free to adjust the sticking pattern in the percussion section. I would suggest writing a "sticking pattern of the day" on the board for reading and use by the percussion section. Please note that the instrumentation notated is very flexible. Please assign instruments based upon the actual equipment available and the number of performers in the rehearsal. The technique development of striking the instrument is the priority.

As a pre-composition/arranging exercise, you may wish to ask students to create a dynamic shape and/or sticking pattern for the band to perform. Additional options include directing the brass section to play the exercise on the mouthpiece only to increase breath support and focus the pitch.

II. TECHNIQUE

- ### A. Brass lip flexibilities
- are essential for brass player development. Finger dexterity for the woodwinds and sticking dexterity in the percussion are equally important. I have written this exercise as an introduction to these crucial techniques as well as a model for teacher and student created exercises. Please note that the horns will be playing a fourth below the rest of the brass section to facilitate the true lip flexibility. You may wish to isolate the brass to ensure note and pitch accuracy. As an option, direct the brass to perform the exercise on mouthpieces only.

Direct the band to perform the exercise at a mezzo forte and a moderate tempo. Careful attention should be given to the woodwind hand position and finger technique. Please remind the brass section as well as the woodwinds that a consistent airstream is the key to their success.

Create a "sticking pattern of the day" for the percussion section. I would suggest writing it on the board for rehearsal efficiency. The eighth notes allow the sticking pattern to be solidified before the application of that pattern with the sixteenth notes. As an option, ask a percussionist to create a sticking pattern for performance by the section.

Repeat the exercise at increasing tempi and varied dynamic levels. In addition, repeat the exercise in descending chromatic keys.

- B. Direct the band to perform the B \flat major scale and articulation exercises repeating as necessary with various tempi. As the band progresses, feel free to alter the articulation as needed to reinforce the performance material that is part of the day's rehearsal. As the band becomes more comfortable, apply these rhythmic and articulation patterns to additional scales as notated. The percussion section should perform the scales on keyboard percussion instruments. As an option, create a sticking pattern for performance on battery percussion while rotating the percussionists through the available keyboard instruments.

III. THEORY/COMPOSITION

- A. Direct the band to perform the tones of the major scale as notated. After the band is comfortable, create a new order to the note sequence and direct the band using numeric hand signs. The objective is for each band member to associate a scale tone with a scale degree number. Repeat this process as necessary using different note sequences. I would also suggest directing the band to sing the sequence using scale degree numbers or solfeggio to develop and reinforce their internal sense of pitch.

As a homework assignment, ask students to create their own individual note sequence. At the next rehearsal, select several band members and ask them to write their note sequence on the board. As part of that day's warm-up, direct the band to perform the individual student six-note melodies.

Continue this sequence over time expanding the creative exercise allowing a variety of note lengths. In effect, they will be composing a short melody for the band to perform. For example, using the notated scale, ask the students to create an eight-note melody using any variety of rhythmic value including eighth, quarter, half and whole notes. As an option, ask the individual student to perform their melody for the band. You may also offer the student the opportunity to conduct as the band performs their melody.

Finally, at the appropriate point in the developmental process, ask the students to listen to a melodic sequence and play it back as an ensemble. Other options include individual students performing their note sequence for the band with the band responding with the same note sequence. In addition to the creative exercises, the development of good relative pitch and melodic memory are crucial to the long-term success of each individual musician.

- B. Use the chords as notated to introduce the band to harmony based upon the scale degrees they have been using as creative tools. In the same sequential manner as noted above, create a new chord sequence directing the band using numeric hand signs. Repeat as necessary with various chord sequences reinforcing proper balance and tone quality. I would also suggest that the band sing the chord sequence allowing for multiple teaching opportunities while fine-tuning the band's sense of pitch and harmonic awareness.
- C. As a composition assignment, ask each student to create their own chorale using the notated chords. Ask selected individual students to notate their chorale on the board for use during the band warm-up. As an option, ask the student to conduct their chorale. In the same manner as noted above, this sequence can be developed over the course of the academic year providing a multitude of student compositions and warm-up chorales.

IV. CHORALE

Philosophically, I believe that a consistent warm-up chorale provides an opportunity for ongoing development of pitch, tone quality and ensemble balance. As a result, I have always used a consistent chorale as the final phase of my warm-up process. The chorale provides a vehicle for balancing and tuning the band as the performance environment changes throughout the year.

I would suggest using the *Ariano Chorale* as part of the daily warm-up process. Feel free to adjust the articulation, dynamic shaping and tempi as appropriate to reinforce your daily teaching objectives. You may wish to isolate various choirs for the remainder of the band to listen and evaluate reinforcing the concepts of pitch, balance, blend and tone quality. Other options include using the chorale to reinforce articulation, dynamic levels, etc. As an example, direct the band to perform the entire chorale using a staccato articulation. The staccato will provide an opportunity to address ensemble timing, clearly identifying those who do not follow the conductor or stay at the prescribed tempo. I would also suggest using the chorale as a singing exercise.

Finally, I would suggest using choirs to perform the chorale for the remainder of the band as a harmonic listening exercise. Create opportunities for the students to identify certain chords through the raising of hands. For example, ask the students to raise their hands when they hear the "V" chord.

SUMMARY

To summarize the warm-up procedure, I have prepared the following lesson plan for your use, modification and implementation.

Concept & Skill	Content	Objective	Activity
Tone	Descending Chromatic Sustains	Develop tone quality. Experience and label melodic intervals.	Play, Listen
	Long Tone/Stroke Dexterity Exercise	Develop tone quality and stamina	Play
Technique	Lip Slurs/Scale exercise	Develop brass flexibility. Develop woodwind/percussion dexterity	Play
	Scale & Articulation	Experience and label major scale and arpeggios. Develop articulation skills and percussion dexterity	Play
Theory/Composition	Scale degree exercise	Experience and label major scale degrees. Create a melody using defined note set and rhythmic values	Play, Sing, Listen, Create
	Major scale chord sequence	Experience and label chords based upon the major scale degrees	Play, Listen Sing
	Compose the Chorale	Create a chorale using defined note/chord set	Create, play, Evaluate
Chorale	<i>Ariana Chorale</i>	Develop and reinforce ensemble skills	Play, listen, Evaluate, Sing

FINAL THOUGHTS

Our teaching success is only limited by our imagination. As our band rooms change each year with students of different learning styles, it is crucial to be as creative, yet consistent as possible in our approach. The exercises and teaching strategies outlined in *Concert Band Clinic* are a crucial step in providing our students with the tools necessary for a lifetime of music. A solid fundamental base for our band students is essential to their individual and collective success through the band. In the words of noted composer and educator Carl Orff, "The sound is the thing right from the start!" Please use *Concert Band Clinic* as a starting point and catalyst for your own individual teaching creativity. Best wishes!

CONCERT BAND CLINIC

A Warm-Up and Fundamental Sequence for Concert Band

By ROBERT W. SMITH (ASCAP)

I. Tone

A. Descending Chromatic Sustains

Perform the exercise in the following sequence repeating as needed for reinforcement:

1. Full Band
2. Brass on mouthpieces/Woodwinds play as notated
3. Sing selected intervals (Full Band)
4. Full Band
5. Invert the exercise beginning on the same Concert F. Perform "ascending" chromatic sustains using the same sequence

This musical score is for a conductor's part, labeled "Conductor - 2". It covers measures 7 through 13. The score is arranged in a standard orchestral layout with the following instruments and parts:

- Fl. (Flute)
- Ob. (Oboe)
- 1. Cls. (Clarinet 1)
- 2. Cls. (Clarinet 2)
- 3. Cls. (Clarinet 3)
- B. Cl. (Bass Clarinet)
- Bsn. (Bassoon)
- A. Sax. (Alto Saxophone)
- T. Sax. (Tenor Saxophone)
- Bar. Sax. (Baritone Saxophone)
- 1. Tpts. (Trumpet 1)
- 2. Tpts. (Trumpet 2)
- 3. Tpts. (Trumpet 3)
- Hn. (Horn)
- 1. Tbns. (Trombone 1)
- 2. Tbns. (Trombone 2)
- Euph. (Euphonium)
- Tuba
- Mlt. Perc. (Multiple Percussion)
- Timp. (Timpani)
- Perc. I (Percussion I)
- Perc. II (Percussion II)

The score is written in a key signature of one sharp (F#) and a common time signature (C). The music features a melodic line for the woodwinds and brass, with a rhythmic accompaniment for the percussion. A large red watermark reading "Preview Only" is overlaid diagonally across the page.

B. Long Tone Exercise

Repeat three times with varied dynamic shaping as follows:

1. Sustain each note at a *mf*
2. Begin each note at *p*. Shape each sustain with a crescendo in four beats, decrescendo in four beats
3. Crescendo each sustain for eight beats from *p* to *f*
4. As breath support develops, perform the same sequence using higher and lower pitch sets (ex. Bb, Ab, G)

The musical score is arranged in a standard orchestral layout. The woodwind section includes Flute (Fl.), Oboe (Ob.), Clarinets (Cls. 1, 2, 3), Bassoon (Bsn.), Alto Saxophone (A. Sax.), Tenor Saxophone (T. Sax.), and Baritone Saxophone (Bar. Sax.). The brass section includes Trumpets (Tpts. 1, 2, 3) and Horns (Hn.), with a 'div.' (divisi) instruction for the Horns. The low brass section includes Trombones (Tbns. 1, 2) and Euphonium (Euph.). The tuba part is also present. The percussion section includes Milt. Perc. (Milt. Perc.), Timp. (Timp.), Perc. I, and Perc. II. The score spans measures 14 to 20. A large red watermark 'Preview Only' is overlaid diagonally across the page. The instruction 'use sticking pattern as directed by the conductor' is repeated for the Milt. Perc., Timp., Perc. I, and Perc. II parts.

II. Technique

A. Brass Lip Flexibilities and Woodwind Scales

Repeat exercise, as directed, in descending chromatic keys at increasing tempi (B \flat , A, A \flat , G)

The musical score is arranged in a standard orchestral format. The woodwind section includes Flute (Fl.), Oboe (Ob.), Clarinet 1 (Cls. 1), Clarinet 2 (Cls. 2), Clarinet 3 (Cls. 3), Bass Clarinet (B. Cl.), Bassoon (Bsn.), Alto Saxophone (A. Sax.), Tenor Saxophone (T. Sax.), and Baritone Saxophone (Bar. Sax.). The brass section includes Trumpets 1 (Tpts. 1), Trumpets 2 (Tpts. 2), Trumpets 3 (Tpts. 3), Horns (Hn.), Trombones 1 (Tbns. 1), Trombones 2 (Tbns. 2), Euphonium (Euph.), and Tuba. The percussion section includes Mallet Percussion (Mlt. Perc.), Timpani (Timp.), Percussion I (Perc. I), and Percussion II (Perc. II). The score is written in a key signature of one flat (B \flat) and a 4/4 time signature. The woodwinds and brasses play a descending chromatic scale exercise, while the percussion plays a rhythmic pattern. A large red watermark 'Preview Only' is overlaid diagonally across the score.

Note: Horns play different pitches than the rest of the brass section for slur development

The score features complex rhythmic patterns, including sixteenth-note runs and sustained notes with ties. A large red watermark reading "Preview Only" is overlaid diagonally across the page. Measure numbers 31, 32, 33, and 34 are printed at the bottom of the page.

B. Scales and Articulation
1. Concert Bb Major Scale (Tenuto and Staccato)

Conductor - 13

The image displays a musical score for a concert band, titled "B. Scales and Articulation 1. Concert Bb Major Scale (Tenuto and Staccato)". The score is for a conductor and includes parts for various instruments. The key signature is B-flat major (two flats) and the time signature is 4/4. The score is divided into two systems. The first system includes parts for Flute (Fl.), Oboe (Ob.), Clarinet 1 (Cls. 1), Clarinet 2 (Cls. 2), Clarinet 3 (Cls. 3), Bass Clarinet (B. Cl.), Bassoon (Bsn.), Alto Saxophone (A. Sax.), Tenor Saxophone (T. Sax.), Baritone Saxophone (Bar. Sax.), Trumpet 1 (Tpts. 1), Trumpet 2 (Tpts. 2), Trumpet 3 (Tpts. 3), Horn (Hn.), Trombone 1 (Tbns. 1), Trombone 2 (Tbns. 2), Euphonium (Euph.), and Tuba. The second system includes parts for Milt. Perc. (Milt. Perc.), Timp. (Timp.), Perc. I (Perc. I), and Perc. II (Perc. II). The percussion parts have specific instructions: "Play on Keyboard Percussion" for Timp., and "Percussion tacet: Play notated Keyboard Percussion" for Perc. I and Perc. II. A large red watermark "Preview Only" is overlaid diagonally across the score.

2. Two Per Pitch (Tenuto and Staccato)

This page contains a musical score for a conductor, titled "2. Two Per Pitch (Tenuto and Staccato)". The score is arranged in a standard orchestral format with multiple staves for each instrument family. The instruments listed on the left are: Fl. (Flute), Ob. (Oboe), Cls. 1, 2, 3 (Clarinets), B. Cl. (Bass Clarinet), Bsn. (Bassoon), A. Sax. (Alto Saxophone), T. Sax. (Tenor Saxophone), Bar. Sax. (Baritone Saxophone), Tpts. 1, 2, 3 (Trumpets), Hn. (Horn, marked "div."), Tbps. 1, 2 (Trombones), Euph. (Euphonium), Tuba, Mlt. Perc. (Multiple Percussion), Timp. (Timpani), Perc. I (Percussion I), and Perc. II (Percussion II). The music is written in a key signature of two flats (B-flat and E-flat) and a common time signature (C). The notation includes various rhythmic values such as eighth and sixteenth notes, and rests. A large, diagonal red watermark reading "Preview Only" is overlaid across the entire page, with the text "Legal Use Requires Purchase" written below it.

3. Three Per Pitch (Tenuto and Staccato)

This musical score is for a piece titled "3. Three Per Pitch (Tenuto and Staccato)". It is arranged for a full orchestra and includes parts for the following instruments:

- Flute (Fl.)
- Oboe (Ob.)
- Clarinet 1 (Cls. 1)
- Clarinet 2 (Cls. 2)
- Clarinet 3 (Cls. 3)
- Bass Clarinet (B. Cl.)
- Bassoon (Bsn.)
- Alto Saxophone (A. Sax.)
- Tenor Saxophone (T. Sax.)
- Baritone Saxophone (Bar. Sax.)
- Trumpets 1 (Tpts. 1)
- Trumpets 2 (Tpts. 2)
- Trumpets 3 (Tpts. 3)
- Horn (Hn.) - marked "div." (divisi)
- Trombones 1 (Tbns. 1)
- Trombones 2 (Tbns. 2)
- Euphonium (Euph.)
- Tuba
- Military Percussion (Mlt. Perc.)
- Timpani (Timp.)
- Percussion I (Perc. I)
- Percussion II (Perc. II)

The score is written in 3/4 time with a key signature of one flat (B-flat major or D minor). The music features a complex rhythmic pattern of eighth and sixteenth notes, often grouped in threes. A large, diagonal watermark reading "Preview Only - Legit Use Requires Purchase" is overlaid on the score.

4. Major Scale and Arpeggio

This musical score is for a piece titled "4. Major Scale and Arpeggio". It is a conductor's score for a full orchestra. The score is written in a key signature of one flat (B-flat major or D minor) and a 4/4 time signature. The instruments included are:

- Flute (Fl.)
- Oboe (Ob.)
- Clarinet 1 (Cls. 1)
- Clarinet 2 (Cls. 2)
- Clarinet 3 (Cls. 3)
- Bass Clarinet (B. Cl.)
- Bassoon (Bsn.)
- Alto Saxophone (A. Sax.)
- Tenor Saxophone (T. Sax.)
- Baritone Saxophone (Bar. Sax.)
- Trumpet 1 (Tpts. 1)
- Trumpet 2 (Tpts. 2)
- Trumpet 3 (Tpts. 3)
- Horn (Hn.) - marked "div." for divided parts
- Tuba 1 (Tbns. 1)
- Tuba 2 (Tbns. 2)
- Euphonium (Euph.)
- Tuba (Tuba)
- Multiple Percussion (Mlt. Perc.)
- Timpani (Timp.)
- Percussion I (Perc. I)
- Percussion II (Perc. II)

The score consists of 16 staves, each with a unique instrument label on the left. The music is a major scale and arpeggio exercise, with each instrument playing a specific part of the scale and arpeggio. A large, diagonal red watermark reading "Preview Only" is overlaid across the entire score.

6. Concert E \flat Major Scale (repeat sequence in No. 1 - 4)

This musical score is for a concert band performance of the E-flat Major Scale. It is arranged in a concert band format with a key signature of two flats (B-flat and E-flat) and a common time signature. The score is divided into several sections: Woodwinds (Flute, Oboe, Clarinets 1-3, Bass Clarinet, Bassoon, Alto Saxophone, Tenor Saxophone, Baritone Saxophone), Brass (Trumpets 1-3, Horns, Trombones 1-2, Euphonium, Tuba), and Percussion (Mallet Percussion, Timpani, Percussion I, Percussion II). Each instrument part includes a 'div.' (divisi) marking, indicating that the parts are to be divided among multiple players. The score consists of 18 measures, with a repeat sign at the beginning and end of the sequence. A large red watermark reading 'Preview Only' is overlaid diagonally across the entire page.

III. Theory and Composition

A. Scale Degrees

B. Chords based upon Scale Degrees

The musical score is organized into two main sections: A. Scale Degrees and B. Chords based upon Scale Degrees. It covers a wide range of instruments including Flute (Fl.), Oboe (Ob.), Clarinet (Cls. 1, 2, 3), Bass Clarinet (B. Cl.), Bassoon (Bsn.), Alto Saxophone (A. Sax.), Tenor Saxophone (T. Sax.), Baritone Saxophone (Bar. Sax.), Trumpet (Tpts. 1, 2, 3), Horn (Hn.), Trombone (Tbns. 1, 2), Euphonium (Euph.), Tuba, Mallet Percussion (Mlt. Perc.), Snare Drum (Timp.), and two sets of Percussion (Perc. I, Perc. II). Each instrument part consists of a melodic line with scale degrees (1-8) or Roman numerals (I-VIII) written below the notes. The score is divided into two measures per instrument, with a double bar line separating the two sections. A large red watermark reading 'Legal Use Requires Purchase' is overlaid diagonally across the entire page.

C. Compose The Chorale

- 1. Compose a chord sequence using the Roman numerals for the band to perform in a chorale style.
- 2. Revise (edit) your chord sequence after you hear your chorale.
