

BASIC PATTERNS (MAXIXE):

Musical notation for basic patterns in comping and bass. The comping part is in the treble clef, 2/4 time, and the bass part is in the bass clef, 2/4 time. The comping part shows a sequence of chords and notes: a quarter rest followed by a quarter note, a quarter note, a quarter note, and a quarter note. The bass part shows a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note.

3. Samba

Samba evolved from *maxixe* around the 1920s. Two elements were crucial for the definition of its style: the patterns created by new and old percussion instruments that would later form the *bateria* (percussion ensemble), and the development of a two-bar pattern played by the guitar, differentiating it from the one-bar pattern of the *maxixe*:

Musical notation for a two-bar samba pattern in the treble clef, 2/4 time. The first bar contains a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note. The second bar contains a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note.

There are several patterns that can be used for samba. Most often samba is played with a two-bar pattern, one articulating the downbeat, the other with a 16th-note anticipation.

Two musical notations for different samba patterns in the treble clef, 2/4 time. The first notation shows a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note. The second notation shows a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note.

There are different types of samba that differ in instrumentation, patterns, function, vocal style, tempo, etc. The most well-known derivations are the *samba-enredo*, *samba-choro*, *samba-canção*, *gafieira*, *samba-de-breque*, *samba-de-roda*, *pagode*, *partido alto*, and *samba-funk*.

4. Partido Alto

Originally, the term *partido alto* refers to an old style of samba with a fixed refrain and improvised choruses. This samba style has most recently had a comeback. During the 70s though, the term *partido alto* began to be associated with its particular rhythmic pattern in non-vocal music as well, and to be performed in particular by instrumental ensembles with drumset and bass. It is often used in, but not limited to, a pop or funk context. The *partido alto* pattern can start in either measure of its two-bar pattern. The melody determines which one should be used:

Musical notation for the *Partido Alto* pattern. It consists of three staves: comping (treble clef), bass (bass clef), and perc. (bass clef). The comping part is in 2/4 time and shows a sequence of chords and notes: a quarter note, a quarter note, a quarter note, and a quarter note. The bass part is in 2/4 time and shows a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note. The perc. part is in 2/4 time and shows a sequence of notes: a quarter note, a quarter note, a quarter note, and a quarter note. The notation is divided into two sections, each starting with a C7 chord.

The partido alto pattern is often simplified, with rhythms split between bass and accompaniment that plays the accents:

A musical score for a Partido Alto pattern in 2/4 time, featuring three staves: comping (treble clef), bass (bass clef), and perc. (percussion clef). The comping staff shows a simplified pattern with accents (>) on the first and third beats of each measure. The bass staff provides a rhythmic accompaniment with eighth notes and rests. The percussion staff shows a complex pattern of eighth notes and rests. The score is divided into two systems, each with two measures, and includes a double bar line with repeat dots.

5. Samba-Funk

Samba-funk often uses the partido alto pattern (see above) with a funk feel. Variations of the partido alto pattern are also used with or without funk or pop feel. You can also create a samba-funk feel by using a regular funk groove and adding samba percussion instruments and patterns on top.

EXAMPLE OF VARIATION:

A musical score for a Samba-Funk variation in 2/4 time, featuring two staves: comping (treble clef) and bass (bass clef). The comping staff shows a simplified pattern with accents (>) on the first and third beats. The bass staff provides a rhythmic accompaniment with eighth notes and rests. The score is divided into two measures and includes a double bar line with repeat dots.

6. Bossa-Nova

Bossa-Nova evolved around the late 50s by middle/high class musicians that used samba patterns with jazz harmonic progressions and chord tensions. It uses two and one-bar pattern, and has a concept of integration where all instruments and vocals are balanced in function and dynamics. The rhythmic accompaniment (and vocal style) created by João Gilberto mixed transparent and clear patterns where the harmonic voicings of progressions were as important as the melody.

EXAMPLES OF ONE-BAR PATTERNS:

A musical score for Bossa-Nova one-bar patterns in 2/4 time, featuring two staves: comping (treble clef) and bass (bass clef). The comping staff shows a pattern with a long note on the first beat and a shorter note on the second. The bass staff provides a rhythmic accompaniment with eighth notes and rests. The score is divided into two measures and includes a double bar line with repeat dots.

II. CUBAN

Unlike Brazilian music, Cuban music evolves around a two-measure rhythmic pattern called *clave*.

The clave is a rhythmic cell that is organized in either 2-3 or 3-2 patterns. They are the basis of complex polyrhythmic structures in Cuban music, into which the other rhythmic and melodic elements should fit. The pattern of the clave is played on a pair of round wood sticks, also named claves.

SON CLAVES:

2-3 Clave

3-2 Clave

1. Son and Son-Montuno

Many Afro-Cuban music styles have their roots in the son. There are many types of son: afro-son, guajira-son, rumba-son, and others, including what we know today as Salsa. The son is characterized by the clave, and the tumbao, a typical bass line and conga pattern. Note that the bass line always anticipates the bar line by one quarter-note.

The image shows a musical score for three instruments: bass, clave, and conga. The bass line is in the bass clef and consists of quarter notes that anticipate the bar line by one quarter note. The clave part is in the treble clef and shows the 2-3 Clave pattern. The conga part is in the treble clef and shows a pattern of notes corresponding to the conga rhythms. Below the conga staff, there are letters indicating the conga patterns: P T S T P T O and P T S T P T O O.

O = Open tone P = Palm T = Finger tips S = Slap

If the piano plays a pattern called montuno, then the style is referred to as *son-montuno*.

EXAMPLE OF 2-3 SON MONTUNOS:

The image shows a musical score for three instruments: comping, bass, and clave. The comping part is in the treble clef and shows a pattern of chords (F, Bb, C7, F) and notes. The bass part is in the bass clef and shows a pattern of notes. The clave part is in the treble clef and shows the 2-3 Clave pattern.

RHYTHMIC AND MELODIC INTERPRETATION

There are different ways one can interpret the rhythms of any given melody in the styles presented in this book. First you need to get familiar with some of the typical rhythms that are often seen in Brazilian and Afro-Cuban music.

COMMON RHYTHMIC FIGURES

Repeat each figure several times in a loop. Practice them first using one single note.

Now work on some of the rhythmic variations that are constructed either by using ties and rests or in combination with other rhythms:

LENGTH OF SYNCOPATED NOTES

They can vary depending on tempo, style and personal interpretation. In faster tempos the tendency is to shorten syncopated notes:

This written rhythm...

...could be played like this:

or this:
