# Learn as you play through the world of *Stringtastic!*

***Stringtastic Book 1*** is an exciting collection of fun new compositions covering a wide range of styles. These pieces are progressively presented, taking the player on a journey from the D major scale through to Grade 1 (Early Elementary) level. No more than one technique is introduced at a time and space is given for consolidation.

These books have been designed for maximum flexibility:

- *Stringtastic Book 1* for violin, viola, cello and double bass is fully integrated to work together in any combination – ideal for use in individual lessons as well as group lessons and string orchestras.
- Many tunes have fun lyrics to sing, helping to develop a strong sense of pitch and rhythm. Learners can try writing their own lyrics, too!
- Dynamics are given throughout, but players are encouraged to add their own once a confident sound has been developed. Where there are lyrics, dynamics have consistently been placed below the lyric line and apply to both parts in the duets.
- Fingering is left to the discretion of the teacher.
- While there are 57 pieces in total, eight of these are equal-level duets, both accompanied and unaccompanied; here players are encouraged to learn both parts.
- Every tune has a fun backing track to play along to, as well as a piano-only backing track for practice:
