

Fingerpower® Transposer

Level One

Melodic Technic Exercises with Integrated Transposing

by Wesley Schaum

Foreword

This unique series integrates the benefits of Fingerpower exercises with basic transposing. Transposing helps develop ear training and awareness of melodic contour. At Level One, key signatures are introduced and expanded to include D Major and B-flat Major in both treble and bass staves.

These exercises present simple melodic and harmonic intervals. The student learns to recognize these intervals on the printed page, hear the different sounds, and also experience the feeling in the hand as various intervals are played.

Each exercise has melodic elements delineated by phrase marks. Students are taught to recognize phrase groups that recur in the same piece. This process helps in learning and memorizing these exercises. Awareness of phrase groups also helps to enhance music reading skills beyond this book.

Exercise	Page
1. Broken and Blocked 3rds - C Position..... transposed to G Position	2
