Introduction	xv
------------------------	----

Chapter 1 **Crafting the Quintessential Soundtrack** **1**

Dialogue.....	1
Background Sounds.....	1
Sound Effects	2
Sound Design	2
Music	2
Putting It All Together	2
Workflow.....	3
DVD Education.....	4

Chapter 2 **Audio Aesthetics** **7**

Dialogue Rules.....	7
Plan Ahead.....	7
The Final Mix Matters.....	8
Narrative Elements.....	9
Diegetic and Non-Diegetic Sounds	9
Listening versus Hearing	10
Figure/Ground.....	10
Cause and Effect	11
Entrainment	11
Soundtrack Core Elements	11
Fixing and Sweetening.....	11
Controlling Noise.....	12
Ensuring Consistency	12
Enriching the Listening Experience.....	13
Checklist for Soundtrack Success	14
Sound Transitions	14
Ear Candy.....	15
Quiet Scenes.....	15
Sports-izing	16
Analyze This	16

Chapter 3	
What Is Sound?	19
<hr/>	
Components of Sound.....	19
Analog Basics.....	21
Sound Perception.....	21
Digital Diatribe.....	22
Sound Starts.....	23
Sound Channels.....	24
Wrap Up.....	25
Chapter 4	
Workflow	27
<hr/>	
Picture Editorial versus Sound Editorial.....	27
Divvy Up the Work.....	28
Workflow Approach.....	29
Spotting Session.....	30
Working with Production Dialogue.....	33
Working with Sound Effects and Backgrounds.....	33
Working with Music.....	34
Putting It All Together.....	35
Technical Issues.....	36
Chapter 5	
Location Matters	39
<hr/>	
Overcoming Production Woes.....	39
Location, Location, Location.....	40
Capturing Room Tone.....	40
Top Mistakes Made in the Field.....	41
Fix It in Post...Not!.....	44
Noise.....	44
Distortion.....	44
Acoustic Anomalies.....	44
Distant Miking.....	45
Live One-of-a-Kind Content.....	45
Printed Effects.....	45
More Noise Issues.....	45
Practicing Noise Avoidance.....	46
Wild Tracks and Shooting for Sound.....	46
Deadening the Sound.....	47
Adding Noise in Post.....	47
Dealing with Wind Noise.....	47
Choosing a Mic.....	48
More Noise Sources.....	48
Checklist for Production Sound Success.....	48

Chapter 6	
Microphones	51
Dynamic Mics	51
Condenser Mics	52
Ribbon Mics	53
Pickup Patterns	53
Mic Rules.....	57
Choose the Right Mic	57
The Fewer Mics, the Better	57
Only Record in Stereo When Appropriate.....	58
Move the Mic Closer	58
Avoid Built-In Mics.....	59
Use Care with Your Mics.....	60
Be Careful When Placing Multiple Mics	60
Microphone Types	61
Boosting the Signal.....	62
Fisher’s Hierarchy of Microphone Choices.....	64
Placement Options and Tips	66
Chapter 7	
Building the Location Sound Kit	71
Mixers, Meters, and Levels	71
Separate Audio Recorders	74
Cables and Connectors.....	76
Location Sound Field Kit	77
Recording Sound Effects and Backgrounds	78
Stereo in the Field	79
Chapter 8	
CYA Tips	85
Double-System Recording	86
Slate Procedures	88
Audio Recorders	91
Shoot for Sound	92
Quality Control.....	93
What Is Wrong with This Scenario?.....	93
Chapter 9	
Hearing Sound	95
Monitors	95
Real-World Reference	97
Speaker Location.....	99
Speaker Calibration.....	101

Ruminations..... 104
 Audio Interface/Soundcard 107

Chapter 10
Making and Recording Sound **113**

Computer Hardware Choices 113
 Software Choices..... 114
 NLE to DAW..... 119
 Gearing Up..... 120
 Strategy 121
 Research..... 121
 Set Goals..... 122
 Budget..... 122
 Buy/Pass 123

Chapter 11
Make Sound *Sound* Better **125**

Using Effects 125
 Tone..... 125
 Time..... 126
 Modulation 127
 Dynamics 128
 Pitch..... 130
 Time Compression/Expansion 130
 Other Effects 130
 Channel Strips..... 131
 Restoration Tools..... 132
 Audio Analysis Tools 132
 Multi-Effects 134
 Must-Have Plug-Ins..... 135
 Links..... 136
 FX Workflow..... 136
 The General State of Generic Advice..... 137

Chapter 12
Audio-Post Workflow Tips **139**

Keeping Organized..... 139
 Preparing the Project..... 140

Chapter 13
Voiceover **143**

Scripting Voiceover 144
 Casting Voiceover 145
 Getting the Best Performance 146
 Recording VOs..... 148
 The Recording Environment 149
 The Porta-Booth..... 149
 Engineering Equipment 151
 Mic Placement..... 152
 Record Flat 152
 Talent Placement..... 153
 VO Resources 153

Chapter 14
Recording ADR and Walla **155**

The Challenges of ADR 155
 Getting Quality ADR 156
 Walla 159
 Defining Walla..... 159
 Recording Walla 159
 Handling Walla Challenges..... 160
 More Techniques for Effective Walla Recordings..... 160

Chapter 15
Editing Dialogue **163**

The Importance of Editing Dialogue 163
 Smoothing Dialogue 164
 J LX 166
 Other Smoothing Techniques 170
 Close Your Eyes and Hear 171
 Dialogue and Phase 172
 Fixing Common Dialogue Ills 175
 DC Offset 177
 Sibilance..... 177
 Popped P’s (and B’s and T’s)..... 178
 Mouth Noises (Breaths, Lip Smacks, and Other Vocal Garbage) 180
 Expansion 183
 Too Much Reverb..... 184
 Rumble and Hiss..... 185
 Tonal Fixes 186
 Better Speech Intelligibility 187
 EQ One File with Another 188

Clicks, Glitches, and Pop Removal.....	188
Repairing Clipped Peaks (Distortion)	190
Hum.....	192
Time Compression/Expansion	195
Pitch Shift	196
Volume	197
Compression	198
Dedicated Noise Reduction	199
Special Voice Effects	205
Simulating a Telephone Line	205
Simulating Rooms and Spaces.....	206
Delay...Delay...Delay.....	206
Reversing Dialogue	206
Flanging, Chorusing, and Phasing	207

Chapter 16
Sound Effects **209**

Oodles of Sounds	210
Spotting Sound Effects	211
Hunting and Gathering	213
Your Sound Effects Library.....	219
Production Tracks.....	219
Sound Effects Collections.....	220
Sound Effects Websites.....	221
Roll Your Own	222

Chapter 17
Foley and Backgrounds **225**

Foley	225
Recording Foley	226
Footsteps.....	227
Clothing	228
Props.....	228
Foley Sound Effects.....	229
Software-Based Foley	230
Backgrounds.....	230
Gathering BGs.....	231
Super-Size Your Stereo Backgrounds.....	233
Surround BGs.....	235

Chapter 18
Sound Effects in Use **237**

Write Once, Use Many Times	237
Play to the Emotions	237
The Long Road	238
Sound Saves Money	238
Movie Physics	239
Think Cause and Effect.....	239
Remember the “See a Dog, Hear a Dog” Adage.....	239
Finding the Sync.....	239
Sync the Foreground	240
Don’t Mistake Clip Edges for Sound Starts.....	241
Be Authentic.....	241
Make ’Em Your Own	242
Get Real during Pauses	242
Use Layers.....	243
Watch Out for “Noise” Sounds	243
Beware of “Temp” Video.....	244
It’s What the Sound Sounds Like, Not What It’s Called	244
And Then There’s Sound Design.....	244
Use the Non-Surround LFE.....	246
Worldizing	247
Include Some Ear Candy	248
Use Perspective Shifts	248
Pre- and Post-Lap.....	249
Beware the Exit-Sign Effect.....	249
Throw in the Kitchen Sink	249
Never Close the Door to Creativity.....	250
Futzing Around	251
Premixing, Freezing, and Printing Audio Effects	251
Getting Notes.....	252
A Few Short Case Studies in Sound-Effects Work	253
Cars in Motion	253
Dream Phone	253
Screams	253
Killer Drug.....	254

Chapter 19
Music **255**

Music Fundamentals	256
Why Are You Using Music?.....	256
What Emotional Response Do You Desire?	257
What Is the Message?.....	257
Who Is Your Audience?	257

What Style Is Appropriate to the Audience?..... 257

What Style Is Appropriate to the Message?..... 257

Where Will You Put the Music (or Not)? 257

Getting the Music 259

Library (a.k.a. Production or Stock) Music 261

Indie Artists..... 263

Creative Commons..... 264

DIY Music 264

Hire a Composer..... 266

Music Budget 267

Editing Music..... 268

Further Music Studies 270

Opening Titles/Show Theme 270

Motif and Leitmotif 271

POV 271

Building Tension and Foreshadowing..... 271

Diegetic to Non-Diegetic and Back 271

Music as Sound Effect..... 271

Offbeat, Atonal Music 272

Electronic Music 272

Firewood..... 272

Case Study: Scoring *The Craving Heart* 272

Chapter 20

Mixing 275

Housekeeping..... 275

Listen to What’s There..... 276

Don’t Mix Alone..... 276

Premix/Predub..... 277

Track Optimization..... 278

Audio Effects Optimization..... 280

Monitor Optimization..... 282

Have a Reference Mix 284

Mix Secrets 284

Think WHOLE Mix, Not Individual Pieces 285

Dialogue Still Rules..... 285

Look beyond the Obvious..... 286

Find a Place for Everything 286

Fill the Entire Audible Frequency Range 287

Watch Time 287

Use Volume..... 287

Use Frequency 288

Use S-p-a-c-e 289

Embrace Dynamics and Contrast 290

Apply Appropriate Effects	290
Use Automation	291
Don't Watch the Screen	292
Trust Your Ears	292
Tired Ears = Bad Mix	292
Quality Control.....	292
Surround-Sound Issues	294
Export and Encode Options.....	295
Render the Final Mix.....	296
Dolby Digital AC-3 Metadata.....	297
Dialogue Normalization.....	299
Dynamic-Range Compression.....	299
Final Thoughts	300
Index	301
