## The Hall of Valhalla from The Hammer of Asgard

David Marlatt

*The Hall of Valhalla* is the second movement to the three part suite *The Hammer of Asgard*, an original soundtrack style composition for winds and percussion. Using Norse mythology as the theme, *The Hammer of Asgard* introduces and explores the gods and other characters that make up these famous stories. The other movements to this suite are *Thor and Loki* and the *Battle With the Frost Giants*.

There is an optional narrator part which could be read before the performance of this movement:

*Asgard, the Norse kingdom of the gods. Floating high in the sky and connected to the world of humanity by the rainbow bridge Bifrost. It is here that Odin, king of the gods, sits on his throne, overseeing various creatures ranging from giants to dwarfs, from valkyries to humans.*

*When a worthy person dies in battle, a Valkyrie comes and brings their soul to the Hall of Valhalla where they can live for all eternity. The journey to Valhalla is very subdued, but when the dead first see the gates of the mighty hall, their awe and amazement is indescribable. The hall is immeasurable in size and filled with so much luxury and wealth that no man could ever wish for anything again.*
