He also works as a freelance film composer, artist/photographer, and writer. He lives in Jonesboro, Arkansas with his family.

About the Music

Sometimes, inspiration can be like a low flame...a spark, if you will. It sizzles, gradually growing in intensity and must be fed to continue its blaze. Other times, inspiration comes all at once, burning bright and consuming all in its path. This was the case with *Flashfire*.

Flashfire was born out of a burst of inspiration so intense that I dropped all other projects to write it. The spark was the initial rhythm that the winds enter with, which becomes the main driving motive for the entire work. As I was trying to get my ideas down as fast as they were coming, I tried to convey the sense of energy and immediacy that I felt when composing it. The intended effect is a wave of adrenaline fueled energy radiating from the performers and washing over the audience.

Rehearsal Suggestions

- The tempo for *Flashfire* is essential to its character. While it is recommended that the tempo be brought down when initially preparing the work, it is imperative that appropriate time and rehearsal be given to achieving its intended effect.
- A strong sense of dynamic achievement and tone will be required to give the work the cinematic character that is intended. Obvious dynamic shaping should be implemented and practiced in warm-ups as well.
- Measures 49-60 may be conducted "in two" if the conductor is so inclined.
- Draw the performers' attention to the motive that occurs in measures 3-4, which becomes a unifying mechanism for the work. Define motive and challenge to performers to identify when it occurs in other areas of the work. Also, challenge them to come up with mini compositions using this in sequence, truncation, diminution, etc.
