## The Composer

Born in 1959, Chris Sharp is a Florida native raised in Cocoa Beach. He received a Bachelor of Music degree in theory and composition from the University of Florida, where he performed in bands under Frank Wickes and Gary Langford, and studied privately with Richard W. Bowles and Edward Troupin. He earned a Master of Music degree in studio writing and production from the University of Miami, studying with Gary Lindsay, James Progris, Alfred Reed, Ron Miller, and Whit Sidener. Since 1984, Mr. Sharp has served as a staff arranger for Walt Disney World Creative Services, providing music for events ranging from street bands to national television broadcasts. He has also written for Universal Studios (Florida and California); Ringling Brothers Circus; high school and college bands throughout the United States; and several service bands, including the famed USAF Airmen of Note. Active nationwide as a clinician and adjudicator, Mr. Sharp's present focus is on developing material for high school and middle school concert bands, jazz bands, and small ensembles. He currently lives in the Orlando area, where he is a composer, arranger, orchestrator, freelance trombonist, and active music educator.

## About the Music

*Mambo Jambo* is an original composition written in the Caribbean mambo style. Percussion parts are marked optional, but you will find its addition useful in enhancing the overall rhythm feel. Pay special attention to piano; it often moves independently of the ensemble, and must be played accurately and with conviction. This arrangement is playable with as few as four saxes, three trumpets, two trombones, and rhythm section (bass, drums, and piano). Extra doubled parts are provided for flute, French horn, and treble clef baritone.

All players should observe indicated slurs and articulations to ensure an idiomatically correct interpretation. Be sure all harmonized sax ensemble passages are well supported with plenty of air so that equal representation of all chordal elements is achieved. Separate trumpet and trombone solos are provided at bar 49; either or both can be used, but trumpet should always play last because it interacts with the sax accompaniment in the 2nd ending at bar 65.

Be sure the musicians don't overplay the unison passage beginning at bar 67; it should be light and mobile. An alternate hi-hat part simulating the guiro is indicated in the drum set part if no percussionist is available. The drum fill provided in bars 89–92 is offered as a reference for less experienced players; drummers who are comfortable should feel free to improvise their own, provided it properly sets up the ensemble entrance on beat 4 of bar 92. Wind players should be advised to keep their horns in playing position at bar 107 to facilitate the vocalization just before the final note.

*Chris Sharp*
