About the Music

Shuffle Stop is a medium-tempo blues in B♭ set over a shuffle groove and is playable in a range of tempos. Throughout the chart, players should carefully observe printed articulations and approach all rhythmic figures aggressively. The interplay between trumpets and alto and tenor saxes in bars 2 and 3 sets the tone for the entire chart. The tenor sax and trombone statement of the melody beginning at bar 9 should be balanced. Likewise, when saxes take over the melody at bar 21, the balance between octaves should be heard, and the brass punch chords should be at an equal volume. At bar 33, a stop-time section begins a chorus-long dialogue between brass and saxes. During this section, players should focus on the time of the hi-hat to keep the groove steady and in the pocket.

At bar 46, the solo section has suggested solos for both alto 1 and trumpet 2. The blues form is a great vehicle for getting students involved in improvisation, so feel free to open up this section and feature additional soloists. After solos, the sax section is spotlighted with a short soli. During this section, care should be taken to equally balance parts and articulate in a uniform manner. This soli leads into the shout chorus at bar 82. Brass should be balanced but trumpet 1 should lead the charge. A heavy backbeat from drums will drive this section forward. At bar 90, the intro motif returns as a tag and should be played like the beginning.

The shuffle groove itself has many variations. Often, young drummers substitute a rock shuffle for this feel. While this may be exciting, an opportunity for students to learn an important style may be missed. There are many examples of this groove for students to listen to and absorb, like *Blues in Hoss Flat* (Count Basie), *Don't Git Sassy* and *The Groove Merchant* (Thad Jones and Mel Lewis), *Party Time* (Buddy Rich), and *One by One* (Art Blakey).
