PROGRAM NOTE

The Highland Games is a heroic and daring piece that draws inspiration from the annual Highland Games in Scotland. These games have been a part of Scotland's history for hundreds of years, taking place every summer in locations all across the country. There is dancing, bagpipe music, athletic competitions, and a multitude of other events in which to partake.

The composer writes, "I have always loved Gaelic music and even played harp in a Gaelic music ensemble in college. It was no surprise when an energetic tune came to me one day while I was gardening. I immediately saw the Scottish Highlands in my head."

The Highland Games has a film score-like quality throughout. Let your visual imagination soar as the music takes us to the Scottish Highlands to experience these epic games firsthand.

NOTES TO CONDUCTOR

The solo violin should take the introduction's tempo loosely for dramatic effect. I suggest allowing the soloist ultimate expressive freedom with your conducting beginning in measure 5. As an option for ensemble precision, you may wish to adjust the tempo to 125 beats per minute as you begin conducting in measure 5.

With the repetitive theme, the dynamics play a huge role in the building of the piece. Please be sure the orchestra follows all dynamic markings accurately to achieve the highest level of intrigue and effect. Please encourage them to play the piece as if they were recording the score to their favorite epic action film!
