PROGRAM NOTE

On a late October evening in 1898, Elgar, weary from teaching, began to play the piano, improvising a melody that caught his wife's attention. This seemingly insignificant tune led to a playful conversation and ultimately created the Variations. Each variation was a musical portrayal of his friends, capturing their unique quirks and characteristics. Elgar described this work as beginning “in a spirit of humor & continued in deep seriousness.” The Variations, introduced by the esteemed conductor Hans Richter, marked a turning point in Elgar's career and a milestone in English music.

The Enigma Variations presented two mysteries: the identities of the friends portrayed within each variation and a cryptic ‘larger theme’ that Elgar claimed existed but was never played.

The variation **Nimrod** is an homage to August Jaeger, a dear friend and confidant, and captures a heartfelt discussion between the two about the slow movements of Beethoven.
