PROGRAM NOTE

Aileron refers to the hinged flaps on the wings of an aircraft, used to help it roll and turn. This piece is meant to emulate the sensation of taking flight by using furious woodwind trills and runs, soaring brass melodies, and heroic horn calls.

Aileron was originally written for horn octet by Dr. James Naigus. He is an Assistant Professor of Horn at the University of Georgia's Hugh Hodgson School of Music, co-founder of the Cor Moto Horn Duo, and hornist with the Georgia Brass Quintet. In addition to being a performer and educator, Dr. Naigus is an accomplished and sought-after composer.

Composer Dawson Burns writes: "Dr. Naigus was one of my professors in the UGA Horn Studio. After listening to **Aileron** and playing it with the UGA Horn Choir, I knew that it had to be adapted into a full wind band work. He has been a major source of support and inspiration not only for myself, but for every member of the UGA Horn Studio as well!"

NOTES TO CONDUCTOR

Aileron is a fanfare in style so ensure your ensemble is putting space in between notes.

In measures 3-4 (and similar instances afterward), advise your Horns to play everything on the B $\flat$ side, allowing the musicians to play all notes in that phrase with an open and first valve only.

The low brass *marcato* release in measure 87 indicates sudden release. Please do not change your ensemble's approach to releasing a note, but make sure that it is sudden and jarring (with the help of the crescendo).

While measures 105-113 are texturally dense, please ensure that the primary voice is the melody in the Clarinets and Bass Clarinets, Bassoon, Tenor and Baritone Saxophone, and Low Brass.

Thank you for programming **Aileron**, and best of luck with your performance! Please visit my composer page at rwsmusic.com to connect.
