He has also served as an adjunct professor of instrumental conducting and Director of the Symphonic Band at Towson University in Maryland.

Currently, Mr. Balmages is the Director of Instrumental Publications for The FJH Music Company Inc. in Fort Lauderdale, Florida. He resides in Baltimore with his wife, Lisa, and their son, Jacob.

## About the Music

*Creatures* is a musical representation of a dark and sinister night full of strange happenings and ghoulish encounters. The piece follows the entrance of these menacing creatures as night falls, and continues to track their mischief until the break of dawn with their quiet retreat back into the shadows.

The opening symbolizes a menacing march as the creatures emerge from the darkness. As the mischief unfolds, the mayhem reaches its peak at measure 33 when strong dissonance is introduced in upper strings. This should be raucous and loud as students explore new notes on their instruments. The music then begins to soften as the audience hears footsteps in retreat of the coming dawn.

Allow students to enjoy the opportunity to explore new notes on their instruments. The increased dissonance will enhance the overall effect and is a great way to introduce the concept of aleatoric music. At measure 39, it is important to sustain the dissonance on beat 3 all the way to measure 41—this is the climax of the entire work. At measure 44, cellos are given an optional upper octave to avoid an extended 4th finger with the low F#. However, the lower octave is preferable, and ideally no one need play the upper part.

The distant footsteps involve students stomping their feet on the floor, but this should be done lightly at a *piano* dynamic to blend with the rest of the ensemble. Piano is recommended for the general sound of the work, though no additional notes are added to the strings. At the very least, consider having left hand only (down the octave as indicated). It will make a difference in the overall sound, especially if there are no basses in the group.
