About the Music

This work was intended to pay a dual tribute, first to the traditions of the Baroque keyboard suite as exemplified by French composer François Couperin (1668–1733), and second to the friends of Ravel who were killed in World War I. “The Tomb of Couperin” is neither programmatic nor dark and melancholy as the title may imply. Rather, it is light, carefree at moments, and only occasionally sentimental. When questioned about the light-hearted affect of the piece, Ravel noted: “The dead are sad enough, in their eternal silence.”

The suite began as a six movement keyboard work, with four of the movements subsequently transcribed by Ravel for orchestra. The *Menuet* and *Rigaudon* are the last two movements of his orchestrated version. Students and teachers will find the form and rhythms approachable, but may be challenged by the harmonies, textures, balance and interpretation.
